

DEBURRING AND POLISHING SERVICES

Where complicated components with internal contours are concerned, highly accurate surface machining and precise edge geometries are decisive for cost-effectiveness and function.

We develop, design, manufacture and market a range of advanced processes and products for deburring and surface finishing.

We can provide the following methods/processes:

- + Abrasive Flow Machining (AFM)
- + Vibratory finishing
- + Edge contouring
- + Polishing
- + Part cleaning

We provide individually developed processes and equipment tailor-made specially to suit your requirements.

DEBURRING AND POLISHING SERVICES

Our Services = Your benefit

- Test and research laboratory
- Streamer production
- Device construction
- Machine construction
- Latest measurement technology
- Tests and trials

Our customers come from:

- Space and aviation
- Automotive industries
- Hydraulics and pneumatics
- Precision mechanics
- Food industry
- Tool and mould construction
- Textile industry
- Aluminium industry
- Pharmaceutical industry

EVERYTHING FROM A SINGLE SOURCE

Take advantage of the **synergy effects** that result from our integration into the **PÜTZ GROUP!**

In addition to surfaces finishing technologies as well as industrial cleaning technologies, we can also offer you the right testing technology to test surfaces and dimensional accuracy.
